

Some papers of Professor R.C. Gupta

Professor Radha Charan Gupta, a veteran historian of mathematics, has been associated with the Indian Society for History of Mathematics (ISHM) from its inception in 1978; he is a founder member of the Society and is now a Vice President of its Council, for over a decade. He took charge, at the founding of the Society, of bringing out the bulletin of the Society, *Ganita Bharati*, and fostered it as Editor for over a quarter century, until 2005.

Professor Gupta has been a prolific researcher and expositor, with profound impact on the study of the history of Indian mathematics. His bibliography runs into hundreds of titles, and the topics involved cover almost all aspects of Indian mathematics from the ancient to the pre-colonial times. For more details on the life and work of Prof. Gupta we refer the reader to the articles noted below.

It is our pleasure to make accessible to the readers some of the papers of Professor Gupta through this website. It is proposed to add more papers to the collection in future.

We are thankful to Prof. Gupta for granting us this privilege, and to Prof. Takao Hayashi for making available digitized versions of the papers being posted.
